General

By submitting the image material, the participant agrees to the terms and conditions of participation. Pictures with the same motif may not be submitted if they have already been submitted to a previous Internat. Wimpassinger Digitalfoto-Salon –

even in another category. All parts of the image must be photographed by the respective author himself - except in the AI category, where parts of the image may of course also be generated by the author. We have introduced our own division in order to create comparable framework conditions. Therefore, please refrain from submitting images generated with artificial intelligence in categories C, M and T. You are free to use several parts of the image that you have photographed yourself in the C and M sections. Please beware from compositings in the case of travel photos (T), because the original impression of the motif should be preserved.

Data

By registering, all participants agree that the personal and image-related data may be stored and processed by the organizer in accordance with the relevant provisions of the Europe-wide General Data Protection Regulation GDPR. Data will never be used, passed on or even sold for any other purpose.
